

Fishing (Canada at Work)

Canadian in every detail, Fishing introduces kids to the people, skills, machines and environmental concerns involved in the fishing industry. Readers take an armchair trip to both the west and east coasts of Canada and find out all about different means of fishing --- trawlers, longliners, seiners, gillnetters and fish farming. A fun combination of fiction and nonfiction, this book in the Canada at Work series fills an educational need for facts about Canadas fishing industry for seven to ten year olds.
