

## Medical Transcription Practice Tapes: Intro to Medical Terminology / Body Systems Terminology / Transcription Practice [4 Audio Cassettes]

(4 Audio Cassettes) [Not a complete set but a number of helpful transcription practice tapes] A Medical Transcriptionist listens to a doctors audio recordings and uses a typewriter or word processor to transcribe what she or he hears into the proper printed format. The medical transcriptionist must be a medical language specialist and be familiar with patient assessment, therapeutic procedures, diagnosis, and prognoses. These four tapes will help you practice your pronunciation of medical terminology.
