

The Way of Herodotus: Travels with the Man Who Invented History

Intrepid travel historian Justin Marozzi retraces the footsteps of Herodotus through the Mediterranean and Middle East, examining Herodotus's 2,500-year-old observations about the cultures and places he visited and finding echoes of his legacy reverberating to this day. *The Way of Herodotus* is a lively yet thought-provoking excursion into the world of Herodotus, with the man who invented history ever present, guiding the narrative with his discursive spirit.
