

# The Wines of Argentina, Chile and Latin America (Mitchell Beazley Classic Wine Library)

After Europe, Latin America is one of the major wine producing areas of the world, yet very little has been written about its wines. This title follows the transformation of winemaking in these countries, examines in detail each of the wine-growing areas, and explains how these now extremely popular wines were, until relatively recently, more or less unknown. There are details of more than 230 producers, from Peru to Cuba, with insight into the challenges faced by some of the lesser known countries and regions. It also explains the role of other internationally respected wine names such as Torres, Mondavi and Rolland.
