

Wildflowers of Great Britain, Europe, Africa & Asia: A comprehensive encyclopedia and guide to the plant diversity of these continents, with ... than 675 maps, illustrations and photographs

This beautifully presented book is an authoritative survey of the floral diversity of Europe, Asia and Africa. It presents more than 260 species of flowers, grasses, herbs, rushes, sedges, trees, shrubs, and aquatic and carnivorous plants, many of which are common species that are easy to identify. Included too are rare and endangered species.
